

holdFELA.

Holding FELA brings you **more** FELA

Project launch - **05 april 2021**

What is holdFELA?

FELA is fully decentralized, there is no one main owner of the token. All decisions are made in the community's favor. Holders earn passive rewards through static reflection as they watch their balance of FELA grow indefinitely. Every trade contributes toward automatically generating liquidity locked inside PancakeSwap LP. Each transaction triggers a burn rate of 1%, which decreases the supply of FELA overtime. FELA rewards its holders with a 4% tax on each transaction to punish weak hands.

4%

4% transaction fee applied and distributed to holders automatically

1%

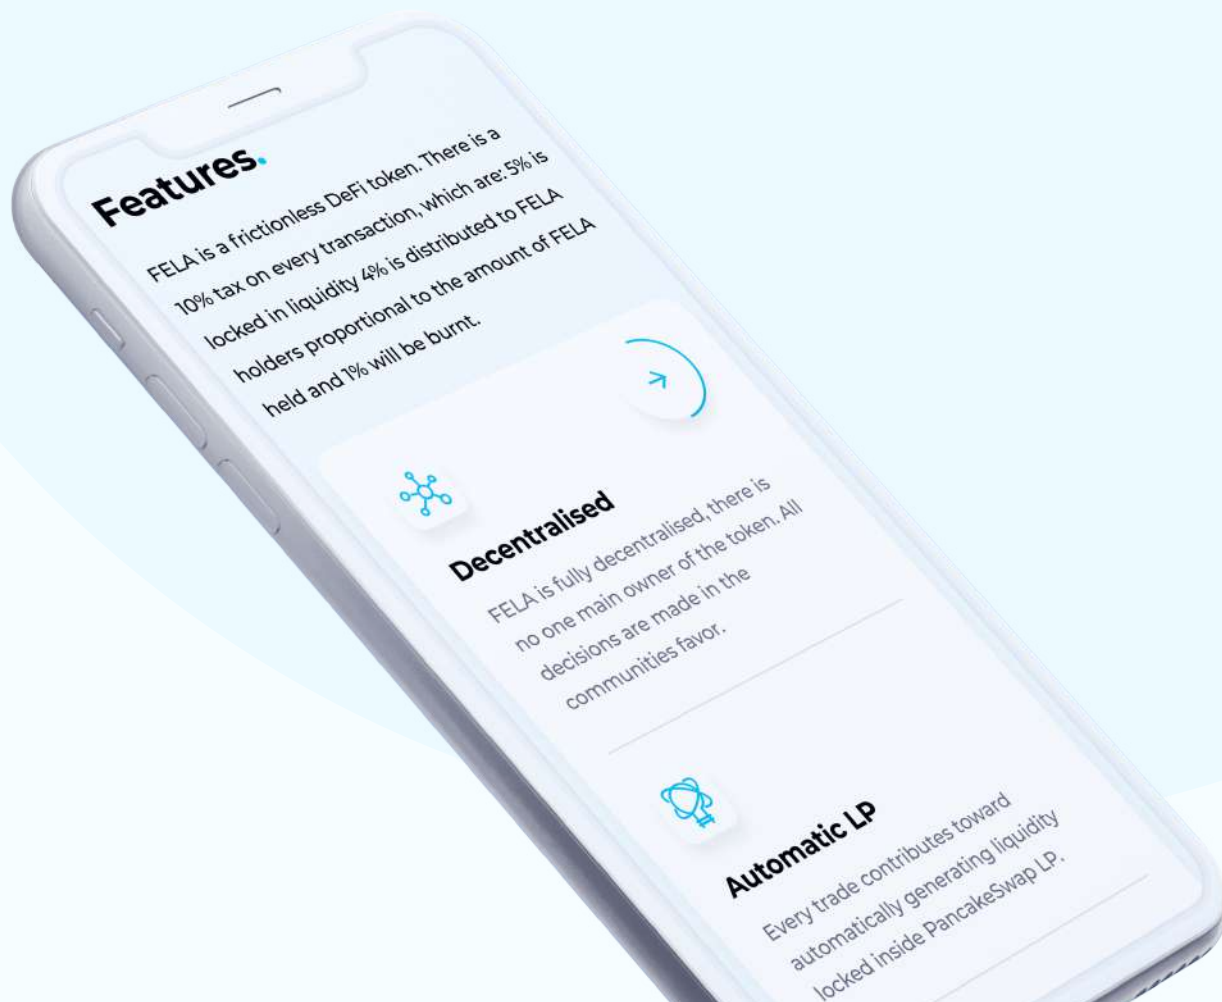

1% will be burnt

5%

5% redistributed to Liquidity Pool automatically

0.25%

Max tokens for 1 transaction: (0.25% of total supply)

Roadmap.

● STAGE 1 - Rebranding

- Redesign & perfect current brand profile
- Determine colour swatches
- Finalize company logo (text logo & icon)
- Design website v.2 (desktop & mobile compatible).

● STAGE 2 - Intro

- New Website
- Build website in compatibility with desktop & mobile
- Launch website on www.holdfela.xyz
- Tokenomics explained (yield generation protocol)
- Informative articles
- Full roadmap
- Team profiles

● STAGE 3 - Marketing
